7:00PM - Black Bear Diner - Hwy 680
at Sycamore Valley Rd in Danville***

Letter From the Editor

I hope you were able to attend our last meeting. We had seven members show up. While not as many as the month before (13!), still not too bad. Daniel drove his beautiful V8 Corvair after getting it running again.

The big news this month is that we have a Tech Session scheduled for April 13th. This will be at Don Burkard's house in Antioch (see map and directions on page 7). This is the first Tech Session for 2019 and hopefully not the last. The main topic this time will be Corvair front end work. Don has a '69 and is redoing the front end. He has obtained the parts he needs from Clark's and we will go over what he intends to do and where he currently sits. Note that this is in addition to our regular meeting and does not replace it.

On Sunday, March 10th we held another "BayVairea Get Together", this time in Antioch. I wish to thank Daniel and Josh for setting this up. What a great time we all had! See write-up on page 5. This really was a great event and I look forward to the next!

One last minute note. On the way home from the Get Together Wess lost a wire wheel cover on his Lakwood.

On The Cover: Bruce Mooers sent in a few pictures of his very nice Evening Orchid '69 Convertible which he had in a Yontville car show recently. The car is a 140 HP with automatic trans and only 35k original miles on the odometer. Completely original down to the top other than I respray to the correct color.

The Spyder Web is published twelve times a year by SFBA Corsa, Chapter 947 of the Corvair Society Of America (CORSA). The group meets monthly on the first Thursday at 7:00 PM at Black Bear Diner on Sycamore Valley Rd in Danville except for special occasions. Membership costs \$25/yr (membership in CORSA, \$38/yr, is encouraged). An associate membership (newsletter only) is available for \$15/yr. Memberships begin on January 1 of each year (first year is prorated).

Advertising space in the Spyder Web is available for \$50/yr (1/4 page), \$75/yr (1/2 page), and \$100/yr (full page). Business card size ads are \$25/yr but do not include a subscription to the newsletter. All material should be sent to the editor (address above) or emailed to CaCalkins@astound.net. Material must be received at least two weeks prior to the next meeting date.

USE OF MATERIAL: Written permission from the Editor is required for all original material for any use other than reprinting in a Chartered CORSA Chapter newsletter. **Permission must be sought in advance for material reprinted herein.**

It's an early 13" wire knock off. He is looking for a replacement. If anyone has one to sell he can be reached at "Nicholas.tds@gmail.com".

Our next meeting will be Thursday, April 4th at Black Bear Diner in
(see [Letter...](#) on page 11)

Minutes of the Last Meeting

March 7, 2019

The meeting was called to order 7:51 by President Josh Deitcher. We had seven members and no guests this evening. Daniel drove his V8 Corvair, sure sounds sweet!"

Treasury Report: Harry reported that the bank balance stood at \$3551.34 after all expenses and deposits (he has a spread-sheet available for the newsletter). Harry asked when the Clubs' Corsa dues were due. Josh will find out.

Membership: Josh reported we have no new members. Most everyone has now renewed. Both Phil and Don said that the emailed newsletter was fine so we can save the cost of sending out the hard copy. Thanks!

Old Business: Josh mentioned that the next "BayVairea Get Together" was scheduled for this coming Sunday (March 10th) at the Riverview Lodge in Antioch, Daniel has made the arrangements and the management is expecting us around noon. The parking lot is right on the Delta and we will see if we can keep the Corvairs together. The weather is expected to be decent. Josh has reached out to CCRC (the Sacramento group) and they are planning to attend. This should be fun!

Clark mentioned that uploading the newsletter to the Hemmings site has been working properly. He is keeping his fingers crossed.

New Business: Josh mentioned that Corsa was interested in getting more young people involved with Corvairs. He made up a list of ideas and sent it in to them.

Josh (and others) received an email from Jaak (Jack) Eijkelenberg, a Corvair guy in the Netherlands, saying that he and his wife were going to be in Cali-

fornia and were looking to buy a Greenbriar or a Van that they could drive around the State in and, hopefully, fill with parts before he has it shipped back to the Netherlands. Sometime in the Fall they will start their tour in San Francisco then go to Sacramento then Las Vegas and on to Los Angeles and back to SF. It doesn't have to be in great shape but should look decent and run reliably and be reasonably priced. If you have one or know of one that fits the bill, Josh knows how to get hold of Jack.

Josh said that Vini & Jen Ryan (from Manchester, England) will be visiting in our area again this year and will try to attend a meeting like they did back in 2017. They have a beautiful Corsa Convertible. Great!

Josh attended the Autoramma at Cal Expo in Sacramento and reported that there were lots of very nice cars and several Corvairs. The Sacramento club had an area with several Corvairs.

Tech Session: Our first Tech Session for 2019 has been scheduled for Saturday, April 13th at Don Burkard's

house in Antioch (see map and directions on page 7). This will start at 10:00 AM (with coffee & donuts) and be followed by a BBQ as usual. Don is in the process of rebuilding the front end of his late model Corvair. He purchased the "complete" kit from Clark's and will go over what has been done and what remains (we may even get our hands dirty!). This should be very interesting. Notice that this is in addition to (and not replacing) our April meeting.

Upcoming Events: As mentioned above, a "BayVairea Get Together" is scheduled for Sunday, March 10th at the Riverview Lodge in Antioch (at the end of "I" street).

The next Vairfest is scheduled for June 21-23 down in Arroyo Grande (same place as previous years). The main car show will be on Saturday the 22nd. Clark said that he would be going for sure and Josh and Lane are expecting to go.

The Spring Fling in Roseville is scheduled for Saturday April 27th. Same place

(see [Minutes...](#) on page 10)

Thursday Nov 7, 7:00 PM	SFBA Regular meeting, Black Bear Diner in Danville, CA
Saturday Dec 7, 6:00 PM	SFBA Holiday Dinner (location to be announced)

"BayVairea Get Together"

Our first "BayVairea Get Together" for 2019 was held on Sunday, March 10th. This time the location was the Riverview Lodge in Antioch, This is an old-time restaurant & bar that sits right on the Delta at the end of "I" street. I don't think it has changed in the 40 years I have been going there! It's the only place around you can get Shrimp or Crab Creos or Au Gratins. Delicious! It's very nice sitting at the bar enjoying the Delta and watching the boats and jet skiers go by.

Daniel made arrangements for us to

meet in the parking lot and we were able to secure several parking spaces right on the edge show casing our Corvairs. I arrived around noon and there were already 3 Corvairs in the lot. The weather was very nice (at least at the start; warm but rain came later in the day). And in the end there were 16 people and 9 Corvairs. What a great turn out! From our Club we had Harry & Carol, Josh, Clark, Daniel, Ray, Don, & Lane. From the Sacramento club (CCRC) there were John, Wess, Lee & his wife and a few others where I didn't catch the names.

After looking over all of the Corvairs and talking cars in general, most of us went inside for lunch where the conversations continued. I had to leave a bit early and I was driving home the rain was starting. I hope all of the convertibles got closed up in time.

Get Together - Continued

Tech Session, Saturday April 13th

Map and Directions

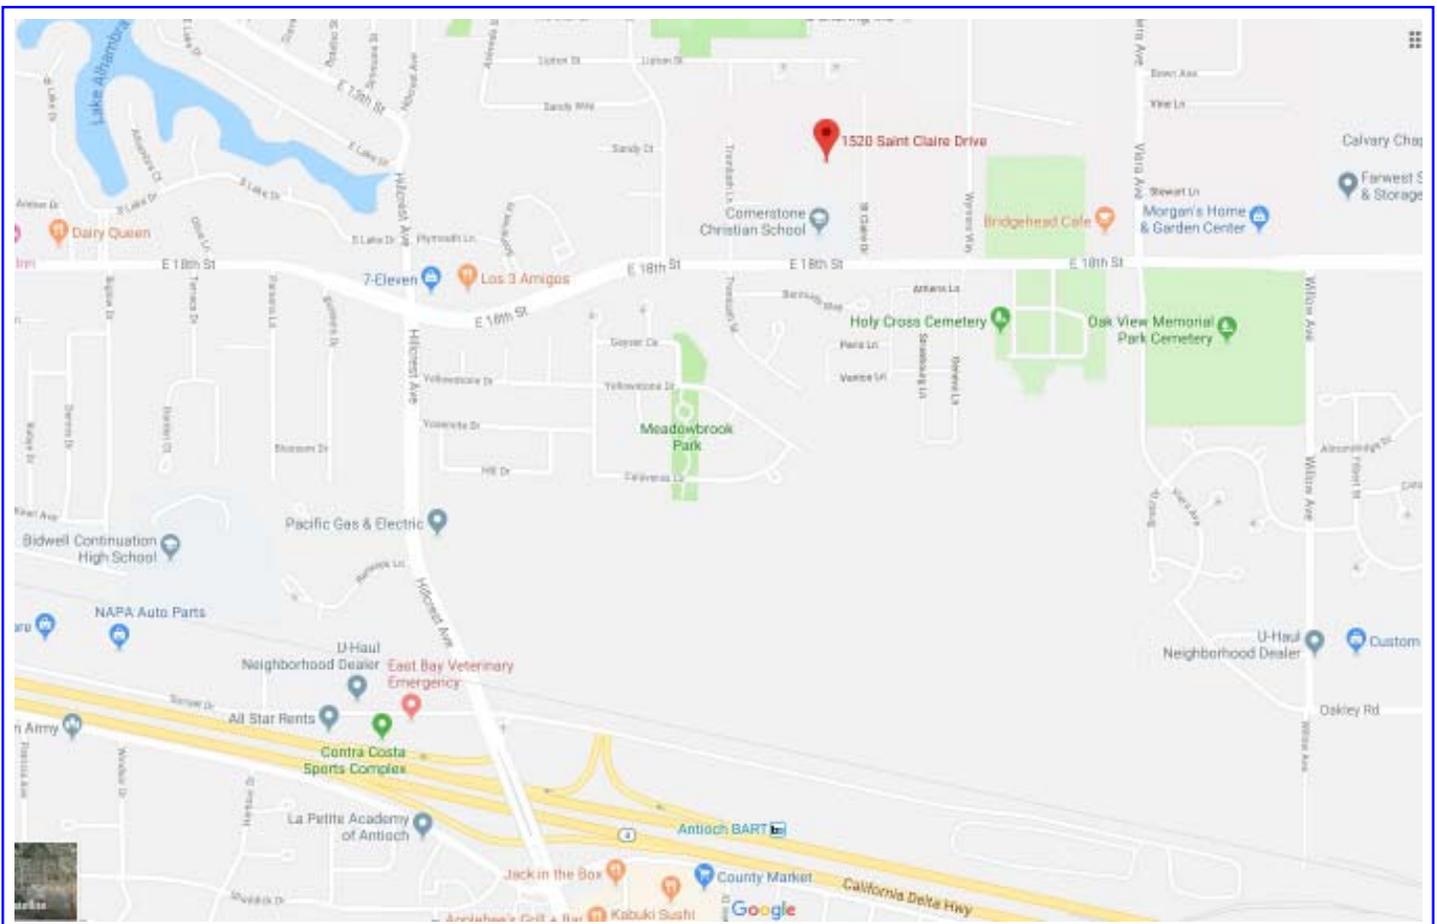

Our first Tech Session for 2019 has been scheduled for Saturday, April 13th at Don Burkard's house in Antioch. We will start around 10:00 AM and talk shop over coffee & donuts. This time we the focus will be on front end suspension work. Don is in the process of rebuilding the front end of his late model Corvair. Don purchased the "Ultimate" kit from Clark's (bushings, bolts, ball joints, wheel bearings) and will go over what has been done and what remains (we may even get to do some of the work ourselves). This should be very interesting.

Following the "hands on" learning we will have a BBQ where we can continue our discussions.

Directions:

Take Hwy 4 towards Antioch, get off on Hillcrest Ave and go North (left). If coming from Brentwood, take the Hillcrest Ave exit and turn left on Slatten Ranch Rd (follow signs) a short distance and then turn right on Hillcrest Ave. Proceed on Hillcrest for ¾ miles. Then turn right at the light on East Eighth-

teenth Street. In ½ mile turn left on Saint Claire Dr. (just past the Cornerstone Christian School). Note that Saint Claire Drive is a small dirt road and Don's house is at 1520 which is the second house on the left. This is a Spanish style house that sits back from the road. The shop is in the back, behind the house.

Don Burkard, 1520 Saint Claire Dr, Antioch, CA 94509

Minutes...

(Fry's parking lot) as last year. Lane was saying that last year he and his wife stayed at Thunder Valley Casino which is not far and has cheap rooms. Great idea! The Sacramento Club is looking for help again this year. They need both raffle baskets (like we did last year) and help manning the booths. Josh will find out more info and pass it on.

Swap & Sell: Josh still has his list of Corvairs parts. These are free to club members and available at nominal cost to others.

Tech: The subject of towing Corvairs came up. Josh said that Finch published plans for a tow-bar (either in his "How to Keep Corvairs Alive" or one of his welding books). He will dig this out and bring it to a future meeting. The tow-bar bolts to the Corvair in place of a bumper.

Daniel said he needed to have a drive shaft shortened (not for his Corvair!) and he took it to a local shop who did it for

\$150. It was cut, welded, turned, and balanced. He thought this was a great price! Also he is building a Corvair dune buggy with a VW bus transaxle (this has extra reduction gears) and asked about the things to consider when making a reverse rotating Corvair motor. Lane mentioned that besides the usual stuff, the pistons had to be changed as the wrist pins were slightly offset to avoid piston "slap". He suggested contacting AirCorvair.org as they routinely do this. Daniel also asked if anyone ran a Sun Scope Engine Analyzer. He has one and wants to use it on his Corvair boat motor. Also he is working on a Chevy II with an LS motor that is about 60% complete. His goal is to have all of his cars run.

The subject of smog test came up. There was a California bill being considered to allow classic cars with a "Historical" license plate that are '81 or older to be exempt. Does anyone know if this passed? Maybe move to Oregon as anything over 20 years old is exempt (and some counties in Cali-

fornia are also exempt from routine smog tests).

There was also some discussion on electric Corvairs. Josh said someone in Red Bluff has an electric Rampside he is selling. Asking \$18k which is probably what he has in it. Clark said that Harry Exline, former SFBA Member, had one. In his day they used lead-acid batteries and DC motors.

Meeting adjourned about 9:00.

Respectively submitted,

Clark Calkins, secretary
